PROFESSIONAL SUMMARY

Detail-oriented Front-End Developer with 2+ years of experience building responsive, high-performance web interfaces using HTML5, CSS3, JavaScript, and React.js. Proven track record delivering client-facing projects across logistics, corporate, and personal branding sectors. Skilled at translating design concepts into clean, maintainable code with strong attention to cross-browser compatibility and user experience.

TECHNICAL SKILLS

Languages	HTML5, CSS3, JavaScript (ES6+)
Frameworks	React.js, Tailwind CSS, Bootstrap
Tools	Git, GitHub, VS Code, Chrome DevTools
Concepts	Responsive Design, Cross-Browser Compatibility, REST API Integration, UI/UX Principles
Languages	Arabic (Native), English (Professional)

WORK EXPERIENCE

Freelance Front-End Developer

Jan 2023 – Present

Self-Employed · Alexandria, Egypt (Remote)

- Designed and developed 3 client websites from scratch, delivering fully responsive layouts optimized for mobile and desktop.
- Built a corporate website for a logistics & industrial machinery company (fiber laser, CNC, metal welding) — improving their online presence and lead generation.
- Developed an introductory website for a software development firm, focusing on clean UI and fast load times.
- Maintained personal portfolio showcasing front-end projects, deployed on a live hosting environment.
- Collaborated directly with clients to gather requirements, present mockups, and deliver projects on time.

PROJECTS

Personal Portfolio Website — [Live Link](#)

- Developed a fully responsive personal portfolio using HTML, CSS, and JavaScript to showcase projects and skills.
- Implemented smooth animations and interactive UI components to enhance user engagement.

Maged — Logistics & Industrial Machinery Company Website — [Live Link](#)

- Built a corporate website for a company specializing in fiber laser cutting, CNC machines, and metal welding equipment imports.
- Designed product showcase sections and service pages with a professional, B2B-oriented UI.

Software Company Introductory Website — [Live Link](#)

- Created a clean, modern landing page for a software development company, emphasizing services and contact call-to-action.
- Focused on performance optimization and accessible, semantic HTML structure.
